

FEAST9

QUICK REFERENCE CARD

Dental Clinic Management System
18 September 2026

- 1 Register Patient
- 2 Open/Create Case
- 3 Record Consent
- 4 Book Appointment
- 5 Log Visit/Rx/Payment
- 6 Set Follow-up

P PATIENTS

- New Patient: DPDP notice tick is mandatory
- DOB auto-fills age
- Guardian required if under 18
- Search matches name/mobile/notes
- Red/amber dot on the list = follow-up due

C CASES (9 SECTIONS)

- Consent -> Visit Notes -> Rx -> Files
- -> Lab Req -> Referral -> Payments
- -> Follow-up -> Cost History
- Notes/Rx/Payments: add-only, never edited
- Balance = Total Cost - Payments (live)

A APPOINTMENTS

- Calendar colour = doctor
- Recurring: edit ONE or WHOLE series
- No-show auto-sets next-day follow-up
- Click reminder text to copy for SMS/WhatsApp
- Booking clears the case's follow-up

D DASHBOARD

- Red = overdue follow-up
- Amber = due within 3 days
- Balance tile hidden for Receptionists
- Lab reqs due before a visit flagged here
- Homepage after every login

\$ FINANCE (DR/ADMIN)

- Reports, Analytics, Financial Assessment
- Profit = Billed - Lab - Consultant -
- Consumables - Misc Expense
- Monthly Eval: Short vs Long Term (deprec.)
- Capital Investments: deactivate, don't edit

! DPDP REQUESTS

- Anyone logs a request; 90-day deadline auto-set
- Only Doctor/Admin resolve
- Erasure needs exact name typed to confirm
- Access -> hand patient the PDF export
- Pending count badge in top nav

WHO CAN DO WHAT

	Receptionist	Patients / Appointments / Cases (non-financial)	NO financial access
	Doctor	Everything Receptionist can + Payments / Reports / Financial / Dental Chart	Full clinical + financial
	Administrator	Everything Doctor can + Users / Settings / Backups / Audit Log	Full system control

STATUS LEGEND

-  Overdue
-  Due soon
-  On track
-  Scheduled
-  No-show
-  Completed

Follow-up is NOT an Appointment: a follow-up is a dashboard reminder on a case; an appointment is a confirmed calendar booking. Booking one from a follow-up clears it.

- Users / Settings†

*Doctor/Admin only †Admin only

SECURITY REMINDERS

- Never share your password, 2FA code, or QR
- Lock or log out on shared front-desk devices
- Keep 2FA recovery codes private & offline
- Report a lost device to your Administrator
- "403 Access Denied" = your role doesn't include that action — it isn't a bug
- Verified backups run nightly — ask an Admin if you see a stale-backup banner
